SUMMARY

Motivated Computer Science undergraduate at the University of Colombo School of Computing with a strong foundation in algorithms, data structures, object-oriented programming, and computer science fundamentals. Skilled in problem-solving, teamwork, communication, and adaptability, with hands-on experience in full-stack development and software projects. Seeking an internship opportunity to apply technical skills, gain industry exposure, and contribute effectively within a dynamic organization.

EDUCATION

University of Colombo School of Computing 2024 - Present

Bachelor of Science (Hons) in Computer Science

Current GPA: 3.4/4.0

Musaeus College, Colombo 7 2009 - 2023

G.C.E. Advanced Level Examination 2022(2023)-Physical Science Stream: ABB

G.C.E. Ordinary Level Examination 2019: 9A's

PROJECTS

PantryPal – AI-Powered Recipe & Pantry Management Platform  April 2026 - June 2026

- Engineered a scalable full-stack PERN application that streamlines pantry inventory management and AI-driven meal planning workflows.
- Leveraged Google Gemini AI to deliver context-aware recipe generation using available ingredients, reducing food waste and enhancing meal discovery.
- Developed secure backend APIs and relational database schemas for inventory tracking, recipe management, shopping lists, and meal scheduling.
- Technologies: React.js, Node.js, Express.js, PostgreSQL, Google Gemini AI API, JavaScript, Tailwind CSS.

RentMe – Luxury Car Rental Management System  April 2026 - May 2026

- Developed a full-stack MERN web application for luxury car rental and booking management.
- Implemented secure user authentication and authorization, enabling role-based access for customers and administrators.
- Designed and integrated modules for vehicle inventory management, booking workflows, and real-time availability tracking.
- Technologies: MongoDB, Express.js, React, Node.js, JavaScript, Tailwind CSS.

HelaCraft – Digital Marketplace for Sri Lankan Artisans  May 2025 - April 2026

- Developed a digital marketplace connecting Sri Lankan artisans with customers for handmade product sales.
- Implemented custom orders, auctions, workshop management, and secure payment handling.
- Technologies: HTML, CSS, JavaScript, PHP, MySQL.

- Designed a microservices-based middleware system for logistics platform integration.
- Implemented asynchronous messaging, service discovery, Saga workflow orchestration, and real-time order tracking.
- Technologies: Java, Spring Boot, RabbitMQ, PostgreSQL, REST APIs, SOAP, WebSocket, Docker.

LUDO-CS Game Simulation

August 2024 - September 2024

- Developed an advanced command-line Ludo game simulation in C with custom gameplay mechanics and rule-based logic.
- Implemented bidirectional movement, block and capture mechanics, mystery cells, and special power effects.
- Designed efficient data structures for board representation, player state management, and game progression.
- Technologies: C, Data Structures, Algorithms, GCC, Command Line Interface.

SKILLS

Programming Languages: C, C++, C#, JavaScript, PHP, Python, Java
Tools & Technologies: Git, Postman, Docker, Linux, Node.js, .NET
Productivity & Collaboration: GitHub, ClickUp, Jira
Frameworks: React.js, Express.js, Spring Boot, Tailwind CSS
Databases: MySQL, MongoDB, PostgreSQL
Soft Skills: Teamwork, Leadership, Effective Communication, Problem Solving, Time Management

CERTIFICATIONS

AWS Educate: Introduction to Cloud 101 <i>Amazon Web Services</i>	2026
Supervised Machine Learning: Regression and Classification <i>DeepLearning.AI</i>	2026
Frontend Developer (React) <i>HackerRank</i>	2026
Introduction to Cybersecurity <i>Cisco Networking Academy</i>	2026

EXTRA-CURRICULAR ACTIVITIES

Committee Member - CSSL GenZ Chapter of University of Colombo School of Computing
Member - IEEE Computer Society Branch Chapter of University of Colombo School of Computing
Member - Gavel Club of University of Colombo
